

ROOM FRAGRANCES

A present for yourself and others

DENK

Enjoy room fragrances

Fragrances appeal to our senses in a very special way. They awaken memories, help us to relax or vitalise.

Our scent carriers absorb oils, essences or perfumes and release the scents over a long period of time. Just drizzle a few drops of high-quality aromatic oil into your *ScentTreasure* or onto our *ScentRose* and enjoy the effect.

ScentTreasure

The patented *ScentTreasure* is a three-stage adjustable fragrance dispenser suitable for all types of liquid aromatic substances. Its washable scent reservoir absorbs oils, essences or perfumes and releases scents over a long period of time.

You can easily clean the fragrance container with washing-up liquid by hand or in the dishwasher.

Place the fragrance reservoir in a pot, add all-purpose cleaner and hot water and let it soak for 2 hours. Then rinse with water and leave to dry.

Depending on the intensity of the fragrance used, it may be necessary to repeat the process. Any scent residue here is negligible.

ScentTreasure *Granicium*[®]
Ø 10.5cm | H 12cm | 0.8kg

How it works

The scent release can be regulated with the lid. The *Porosium*[®] scent reservoir has a huge surface area of about 120 m². Scents can be ideally distributed on it and develop their full effect. This enables a long-lasting and even fragrance release.

The scent reservoir can hold up to 20 ml of liquid scent. We recommend a minimum quantity of 5 ml. You should apply only as much fragrance as can be stored. If the fragrance effect wears off over time, fragrance should be added to the reservoir again.

Scent Rose

The *Scent Rose* not only looks beautiful to the eye. Any fragrances can be drizzled onto the porous porcelain and release their aromas over a long period of time. Depending on the size of the room and the desired scent intensity, just a few drops of aroma oil might be enough.

You can use aroma oils, perfumes or other liquid fragrance essences. The *Scent Rose* is glazed on the underside, so that the aromatic oils cannot escape.

To change the fragrances, the *Scent Rose* can be cleaned in the dishwasher or with household cleaner and hot water.

In addition, the *Scent Rose* can also be used outdoors – e.g. with our Anti-Insect Oil.
